Marschnerstraße is restricted and parking on  
campus is only possible with advance reservation.

UNIVERSITÄT  
LEIPZIG

Erziehungswissenschaftliche  
Fakultät

**13.09.2019**

**Research in the microcosm  
child care center: Topics,  
technologies and transfer**

Opening of the scientific institution  
„Forschungs- und Lehrkindertagesstätte“

# Invitation

Grand opening of the scientific institution  
"Forschungs- und Lehrkindertagesstätte der  
Erziehungswissenschaftlichen Fakultät der  
Universität Leipzig" | Scientific Conference

Last summer the FRÖBEL-Kindergarten "Am Elsterbecken", a child care center with a research and teaching profile, started to operate on the campus of the faculty of education, University of Leipzig. The next milestone will be the initiation of research and teaching activities associated with the child care center. We celebrate the start with a scientific Conference which you are cordially invited to join!

Supported by digital media und innovative assessment technology this throughout Germany unique research setting offers the opportunity to 'zoom' into the everyday life of children and pedagogues and receive an unaltered insight into the microcosm child care center.

The well-known environment, rules/rituals and the presence of familiar people will enable a new quality of research in the areas of children's autonomous activities and self-selected play as well as in the areas of interaction and learning with teachers and peers.

The continuous education and care of the children beginning from age one until school entry additionally allows for longitudinal analysis concerning cognitive and emotional development.

The Conference will present current research projects and scientific findings in relation to the educational environment „child care center“ and discuss potentials, challenges and limitations within this exceptional setting that integrates early childhood education, care, scientific research and teaching.

Please be aware that the Conference language is German (except for english titled contributions).

# Conference program

**from 8.00 am** Arrival and registration

**8.45 am** Opening address

Forschung in und über  
Kindertagesstätten: Designs, Befunde  
und methodische Herausforderungen  
Yvonne Anders  
Berlin, Free University

**9.30 am**

Die Forschungs- und  
Lehrkindertagesstätte der  
Erziehungswissenschaftlichen Fakultät  
Susanne Viernickel  
Leipzig, University of Leipzig

**10.15 am**

Lunch break/

**11.00 am** Opportunity to visit the *Early Child  
Development Lab*

**12.30 pm** Parallel Symposia

**14.30 pm** Break

Why a child care center with a research  
profile?  
Answers from Sydney, Berlin and  
Leipzig

**15.00 pm**

Opportunity to join a round tour of the  
FRÖBEL-Kindergarten „Am  
Elsterbecken“ (advance reservation  
required)

**from 16.15 pm**

# Symposia

## Peer-Interaktionen in der Kindheit

Chair: Patricia Kanngießer (Frühkindliche Entwicklung und Kultur)

## Anschlussfähige Bildungsprozesse in Kita und Grundschule. Systemische, diagnostische und curriculare Perspektiven

Chairs: Beatrice Rupprecht and Katrin Liebers (Schulpädagogik des Primarbereichs)

## Die Kita für Kinder mit Behinderungen inklusiv gestalten

Chairs: Christian Glück and Markus Spreer (Pädagogik im Förderschwerpunkt Sprache und Kommunikation)

## How to design a replicable, innovative and longitudinal study on children's emotional well-being in nursery and preschool

Chair: Robert Hepach (Methods for research of early child development)

## Dimensionen der Prozessqualität in Kindertagesstätten: Generische und bereichsspezifische Perspektiven

Chair: Henrik Saalbach (Pädagogische Psychologie mit Schwerpunkt Lehren, Lernen und Entwicklung)

## Forschung im Mikrokosmos Kita: Forschungsethische Implikationen

Chairs: Susanne Viernickel and Katrin Lattner (Pädagogik der frühen Kindheit)
